Free to Join, Paid Daily

Zilara's plan explained in plain English: what it costs to start (nothing), how it works, and why your placement this week matters.

Keith shared this guide with you because most opportunity "explanations" are either full of hype or full of jargon. This one is neither. It's a calm, honest walk through how Zilara works, so you can make your own decision.

to join	commissions paid	countries	on binary pay

1. Free to Join. No Catch in the Small Print.

If you've ever looked at a network marketing company, you've probably hit the same wall: a starter kit to buy, a monthly fee to stay "active", and an annual renewal you forgot about. Before you've even tried the products, you're out of pocket.

Zilara does it differently. You can open a free account and have a proper look around before you spend a penny.

> 💡 **Key idea:** With Zilara, the account itself costs nothing. You decide if and when to order.

- ✅ **$0 to join.** Open a free account in a few minutes.
- ✅ **No associate fee.** There's no paid "membership" to become part of the business.
- ✅ **No monthly fees.** Nothing quietly leaves your account every month just to stay in.
- ✅ **No annual fees.** No renewal surprise next year.

That means you can explore the products, read this guide, ask questions, and only move forward when it feels right for you.

2. How the Plan Works: Matrix + Binary, Paid Daily

Zilara uses a **hybrid compensation plan**. That simply means it combines two well-known structures, a matrix and a binary, in one plan. You don't need to be a numbers person to follow the parts that matter.

The matrix side	The binary side
A team structure with a defined shape, so everyone has a clear position in the organisation.	Your team is built on two sides (often called "legs"), and volume from orders builds up on each side.

Three features worth knowing

- ✴️ **Commissions are paid daily.** You don't wait until the end of the month to see activity reflected.

- **No cap on binary pay.** The binary side has no ceiling built into it.
- **Binary volume never flushes.** In some plans, unused volume resets to zero after a period. At Zilara, it stays put and carries forward.

> ⚠️ **Plain-English note:** These are features of how the plan is built, not a promise of what anyone will receive. As with any business, what you get out depends on what you put in, and results vary from person to person.

3. The 7-Day Holding Tank: Why Timing Matters

Here's the feature most people overlook, and it's the honest reason not to sit on the fence for months.

When you join Zilara, you go into a **7-day holding tank**. During those seven days, your sponsor can place you **strategically** in the team, thinking about where you'll fit best rather than just dropping you wherever there's a gap.

1	**You create your free account.** You enter the 7-day holding tank straight away.
2	**Your sponsor reviews the team.** Keith can look at the structure and plan the best position for you.
3	**You're placed.** Your position is set, and you build from there.

Why this matters now: Placement is about timing. The sooner you join, the sooner Keith can plan where you fit, based on the team as it stands this month. Waiting won't cost you a penny, but the team keeps growing in the meantime, and your placement will be planned around whatever it looks like when you do join.

4. What a 100 CV Autoship Unlocks

Every Zilara order carries a volume value called **CV**. Here's how order size and CV line up:

Order	Volume
$30	25 CV
$60	50 CV
$115	**100 CV**

If you choose to set up a **100 CV autoship** (a regular monthly order), you unlock the full set of extras:

- ✔ **Star, rank and check-match bonuses.** These bonus types open up to you.
- ✔ **The Vault.** A free product every month.
- ✔ **10 × $25 gift cards per month.** Share them with friends, family or new team members so they can try Zilara.
- ✔ **5% autoship discount** on your regular order.
- ✔ **Up to 30% back in product rewards.**

> 💡 **Think of the gift cards as a sharing tool:** a friendly, no-pressure way to let someone you care about try the products for themselves. No hard sell needed.

5. Start as a Customer, Become a Consultant (at No Cost)

Not sure about the business side yet? That's completely fine. Plenty of people start simply as customers because they want the products.

Then, if you enjoy them and share with someone who joins, this happens:

> ✅ **Enrol just 1 person and you become a consultant, at no cost.**

- **No upgrade fee.** Moving from customer to consultant doesn't cost anything.
- **30% on customer orders.** Consultants receive 30% on their customers' orders, with no order required to qualify.
- **Grow at your own pace.** Same free account, no pressure to do more than you want to.

6. Why Zilara? The Company Behind the Plan

A good plan means little without products people actually want to reorder, and a company you can trust. Here's what stands behind Zilara:

- ✔ **Made in a GMP facility** in Cincinnati, Ohio.
- ✔ **Lot-code traceability since 2011.** Products can be traced back through production.
- ✔ **No synthetic vitamin isolates.**
- ✔ **No artificial colours, flavours, sweeteners or preservatives, and no GMOs.**
- ✔ **Available in 200+ countries.** Share with friends and family almost anywhere.
- ✔ **Debt free.** A financially solid company to build alongside.
- ✔ **Two companies, one stronger team.** Companies founded in 2011 and 2017 merged in 2026, bringing their experience together.
